OUR GOAL

We strive to provide a fun and well structured learning environment. This program is designed to teach students how to play hockey. Using two unique levels we are able to provide a foundation of skills that players build upon.

This program is designed for ages 9-17.

*Under 9? Check out our
Instructional Cross Ice Program
Also On Saturdays*

Level 1

Hockey Skating Skills

This level is designed to teach beginners how to ice skate and play hockey. This program will develop skating skills with an emphasis on proper stride technique, edges, stops-and-starts, and cross-overs. Level 1 is a great way for kids to learn proper ice skating techniques.

Level 2

Hockey Puck Skills

This level is for those students who have previous ice skating experience and feel comfortable on the ice. Students will work on puckhandling, shooting, and passing. Level 2 is an excellent way for players to learn the basics skills of hockey. Students must be able to skate forwards, backwards, perform crossovers and stops.
